Styles of Tyvek® cargo covers to meet your needs

There are three styles of Tyvek® cargo covers to choose from—Tyvek® Solar™ W10, Tyvek® Solar™ W20 and Tyvek® Xtreme™ W50. Deciding which style of Tyvek® cargo covers to use depends on various factors, such as length of time in transit and type of product being shipped. DuPont experts are available in every region around the world to help you choose the best style of Tyvek® cargo covers for your specific needs.

Tyvek® Solar™ W10

- Easy to use and can be installed on a pallet in as little as 90 seconds.
- Low-bulk properties allow for cost-effective storage and transportation.
- Durable and breathable to protect against adverse weather, physical hazards and condensation.

Tyvek® Solar™ W20

- Highly reflective to reduce temperature excursions and cold chain breaks.
- Enhanced temperature control provided by an inner metallized layer.
- Recommended for pharmaceuticals.

Tyvek® Xtreme™ W50

- Reflective and insulated for reduced temperature excursions during long-haul transport.
- Top performance in hot and cold conditions.
- Maintains all breathable, durable and weather-resistant characteristics of Tyvek® Solar™ W10 and Tyvek® Solar™ W20.

External layer of Tyvek® high-reflectivity fabric protects products from solar exposure

Low-emissivity metallized layer provides enhanced temperature control

Lightweight design for easy handling and reduced freight costs

Breathable for reduced buildup of condensation and gas

Durable and tear resistant

Weather resistant

Built-in elastic band for ease in securing the cover

Installs easily for reduced labor requirements and consistent performance

Recyclable for reduced environmental impact†

Recommended for pharmaceuticals

Wide range of traceable industry-standard and customizable sizes

Global availability
